

## Student for Database & Systems Development

Accunia Credit Management is a leading international asset manager specialising in structured credit, private debt, and high yield bonds investments. Our 40 employees manage more than DKK 20 billion for both institutional and private investors through our CLO vehicles, alternative investment funds, and managed accounts.

### Tasks and Responsibilities

We are recruiting a student to help develop our databases, integrations, and systems, with the ambition that you will step into an attractive full-time position at Accunia after completing your studies. We currently use Portman and SQL databases for internal and external reporting, as well as MS Office for general business purposes. Furthermore, we have integrations in place with Bloomberg, Salesforce, Nets, and various other data providers/collectors. Examples of your tasks are:

- Optimising data processes;
- Improving database structure and integration;
- Refining our investor reporting;
- Developing systems for various purposes; and
- Various ad-hoc tasks.

### Qualifications

You are currently enrolled at a university or business school with at least two years of studies remaining, and you want to pursue a system development role in a data driven organisation. Additionally, we value that you:

- Have the ability to take responsibility and ownership of your tasks no matter how big or small;
- Have attention to detail, a structured work approach, and can deliver consistent, high-quality results;
- Have experience building and maintaining databases;
- Are fluent in Danish and English;
- Are familiar with relevant software such as SQL, VBA, Python, XML, API; and
- Are a team player with an ambitious and proactive mindset.

Furthermore, the ideal candidate will:

- Have knowledge of our abovementioned systems and data collectors/providers;
- Have knowledge of Microsoft Power BI; and
- Have experience from a similar role within the financial industry.

### The Position

We believe that working should be engaging, benefitting, and evolving. Due to our flat organisational structure, you will have the possibility to make an impact on the company. As a student at Accunia, you will get:

- A challenging and rewarding part-time job of 15-20 hours per week with high flexibility, potentially turning into a full-time position;
- Intimate knowledge of and work with the investments of an asset manager;
- A dynamic, friendly, and international environment with highly skilled and dedicated colleagues; and
- An opportunity to use various methods from your university program in practice.

### Contact and Application

Please apply by sending your cover letter, resume, and grade transcripts in a [single pdf-file](#) to [careers@accunia.com](mailto:careers@accunia.com) with the subject line "Student for Database & Systems Development". The application deadline is Monday the 9<sup>th</sup> of May 2022 but interviews may be held before the deadline. For any questions regarding the job offering, please contact Chief Operating Officer John Lind ([john.lind@accunia.com](mailto:john.lind@accunia.com) or +45 33 18 82 34).
